## Course Evaluations Fall 2025

# Individual TA Report Fall 2025 - Applied Econometrics for Public Policy - 2025FA - PUBPOL5310 LEC001 - Hyewon Kim

Created Wednesday, December 24, 2025

Courses Audience: 93

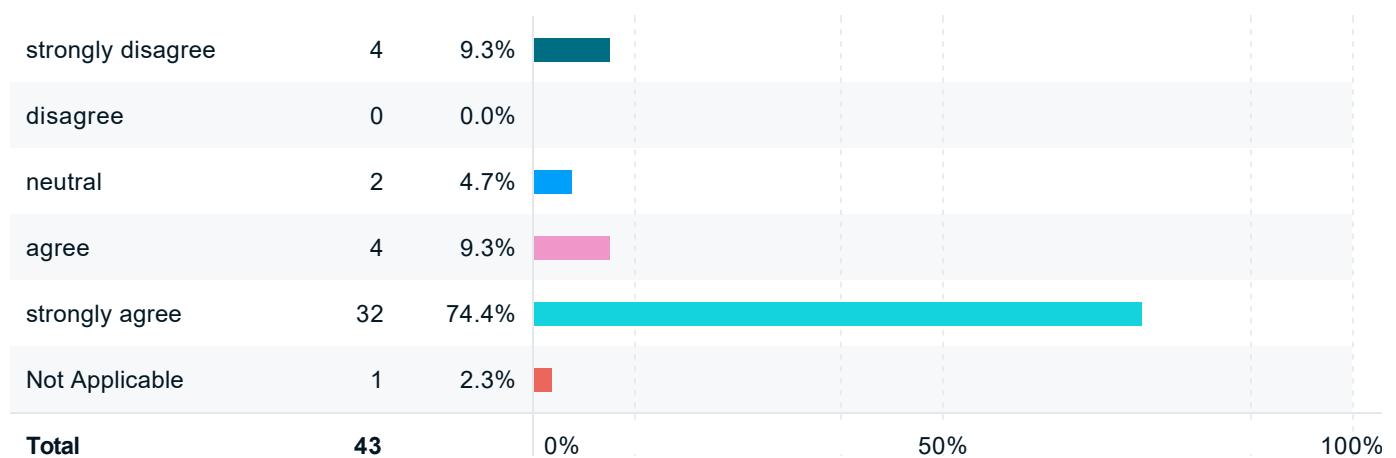

Responses Received: 43

Response Ratio: 46.2 %

## Multiple Choice Statement Questions

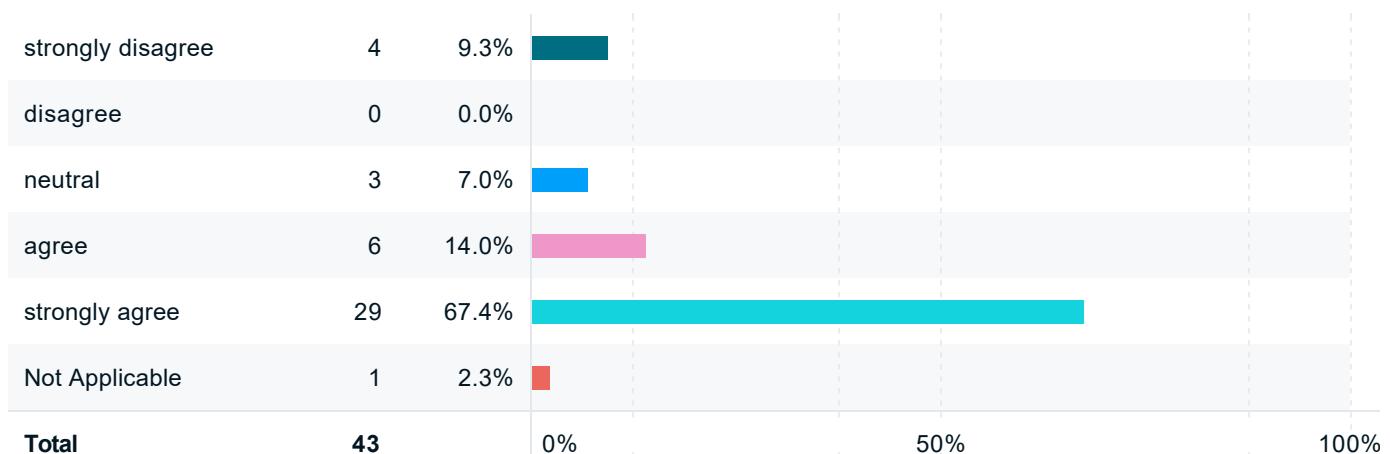

Competency Statistics	Value
Mean	4.28
Standard Deviation	1.26

### 1. This TA was knowledgeable about the course material.

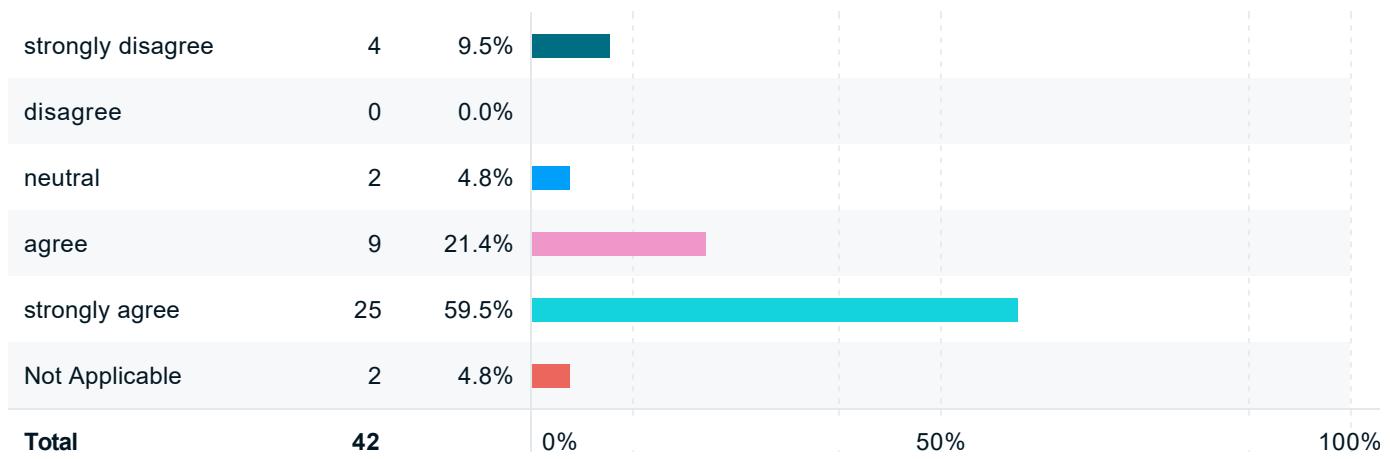

Statistics	Value
Mean	4.43
Standard Deviation	1.23

## 2. This TA was helpful in explaining lecture material and class reading to me.

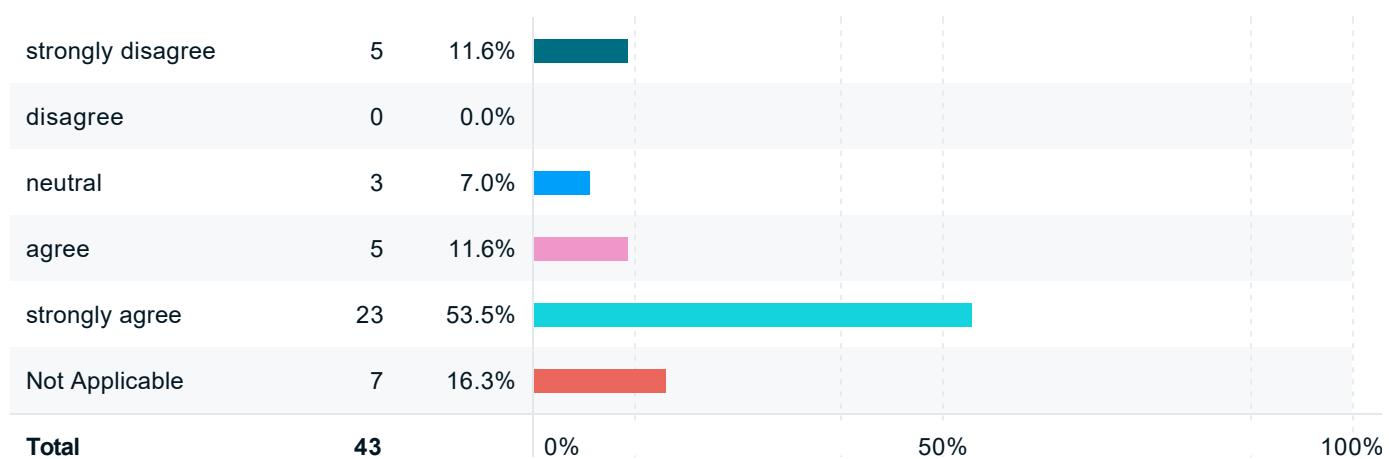

Statistics	Value
Mean	4.33
Standard Deviation	1.24

## 3. This TA was knowledgeable and helpful in my preparation for exams, tests and class assignments.

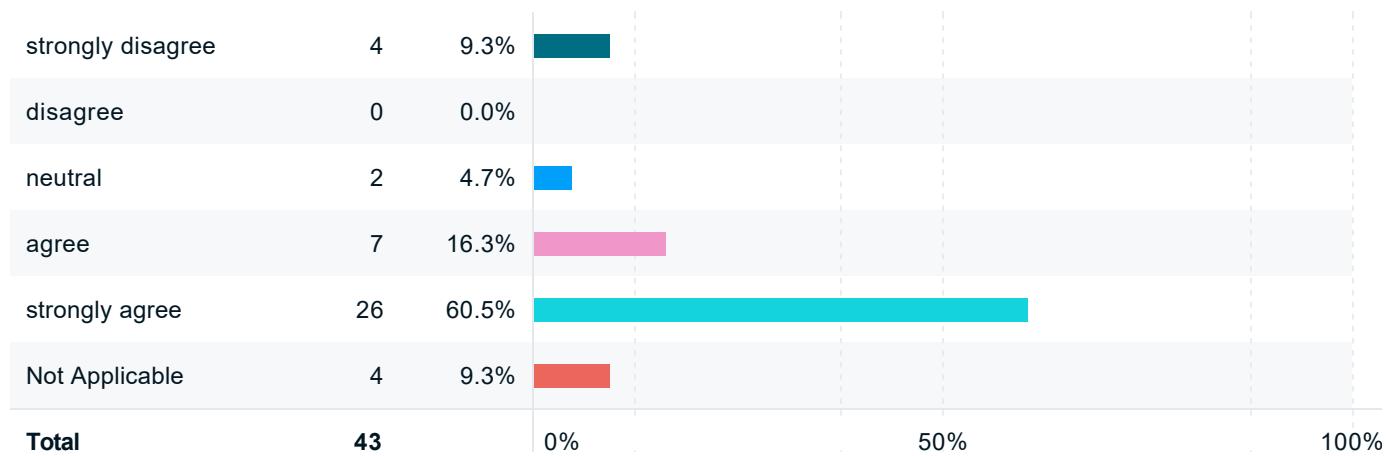

Statistics	Value
Mean	4.28
Standard Deviation	1.24

**4. This TA's review sessions for examinations were organized and clear. Note: If this TA did not hold review sessions please select "not applicable."**

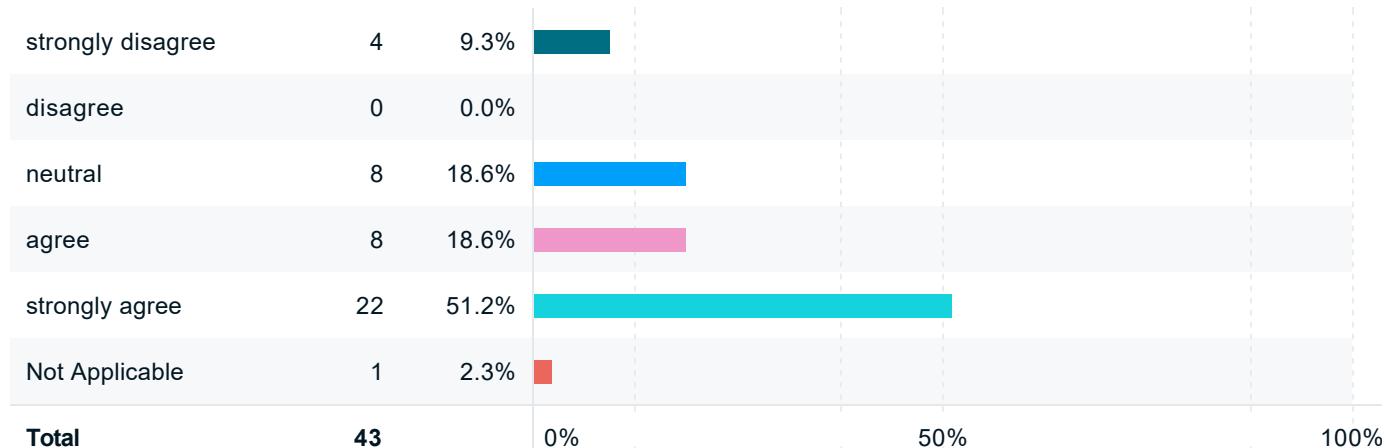

Statistics	Value
Mean	4.14
Standard Deviation	1.42

**5. This TA was prepared for scheduled office hours. Note: If this TA did not hold office hours please select "not applicable."**

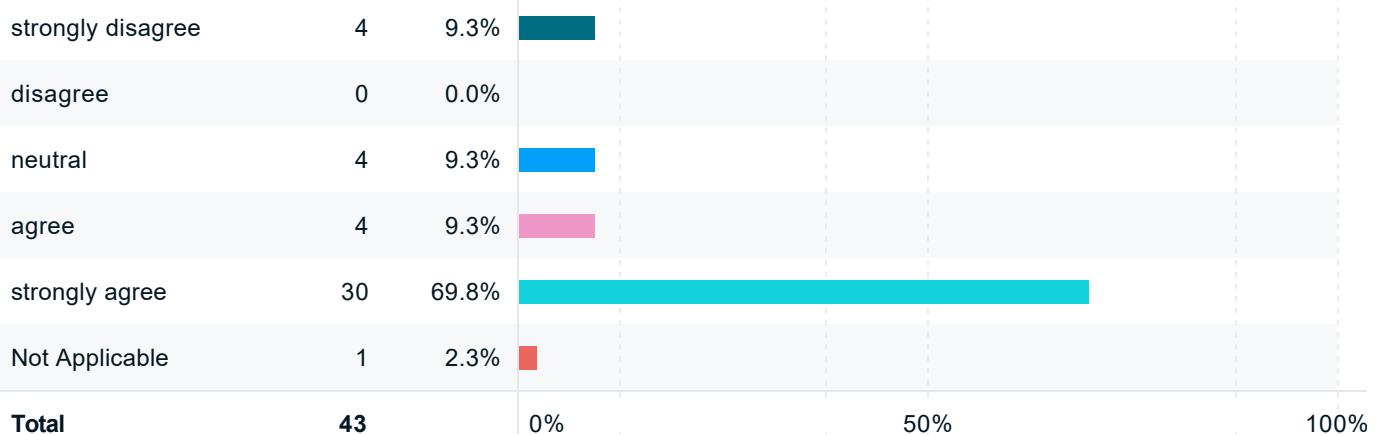

Statistics	Value
Mean	4.31
Standard Deviation	1.26

**6. This TA stimulated my interest in this course.**

Statistics	Value
Mean	4.05
Standard Deviation	1.27

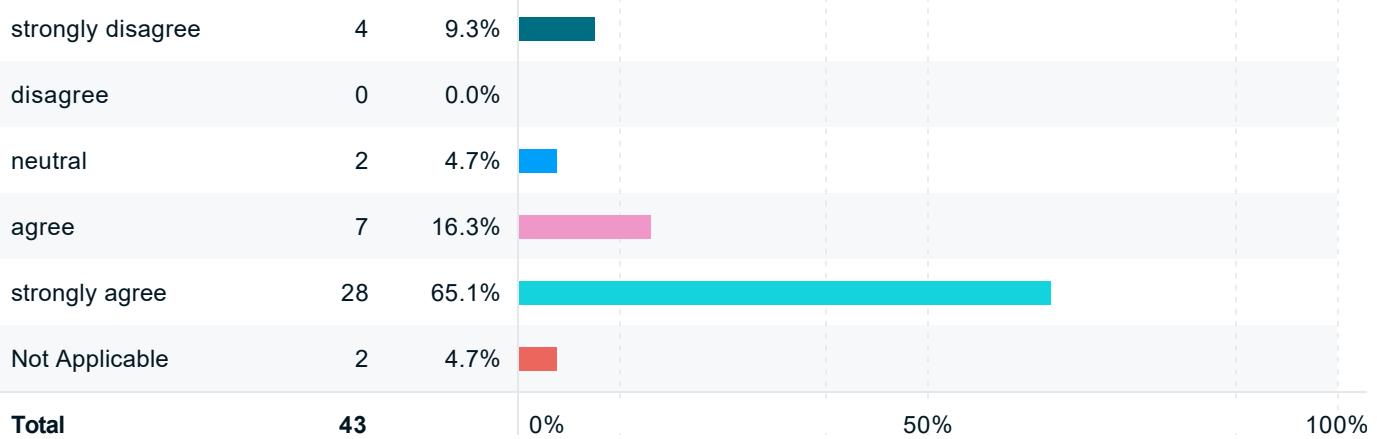

## Multiple Choice Statement Questions (continued)

### 7. This TA was able to explain difficult material clearly and concisely.

Statistics	Value
Mean	4.33
Standard Deviation	1.26

### 8. This TA created and encouraged an inclusive classroom climate.

Statistics	Value
Mean	4.34
Standard Deviation	1.24

## What are the strengths of this student in their capacity as a teaching assistant?

Comment
Her explanation in office hour and lab is very useful and clear. She can deepen our understanding of statistics.
Good person
Hyewon is very knowledgeable and committed to teaching the material.
She kindly answered emails regarding problem sets and a final project.
Hyewon was very helpful and patient in teaching us step by step
TA Hyewon was very accessible, even staying a bit later than required of her office hours to help us out. TA Hyewon is great with individual help and questions in the office hours space.
Being on time, explaining well. Interacting with students, asking questions in lab. Sharing notes to canvas for review
Hyewon is extremely helpful in office hours. She gives coherent explanations and is willing to spend time with students to increase understanding. She was particularly helpful in advising for the final project. My partner and I were a little bit lost and Hyewon was willing to "work together" to better understand what knowledge the assignment required and what kind of analyses and variables would result in a strong project. I am very grateful for Hyewon's help and hope that she will continue to TA and make a great professor, if she so chooses.
Hyewon consistently went above and beyond by offering additional office hours and personalized support to enhance my learning. She was always approachable and willing to provide extra help when needed, and she worked effectively with students at varying learning paces. Her patience and ability to break down complex concepts into clear, manageable explanations made the material much more accessible.
Hyewon was very organized and tried to support student learning, and she was very patient.
Great! Smart!
they knew what they were talking about
The understanding of knowledge is very profound.
Hyewon was very knowledgeable about the course material and gave good guidance on problem sets.
Hyewon could explain difficult concepts for easy understanding very well. She gave examples that made the course fun to learn.
She is excellent. Well prepared lab classes.
ACE! THAnk you! knows concepts well. explains well. get students questions right away. smart! brilliant TA! created an inclusive environment for all students! respect all students&questions.
She made the labs participatory so even when you got the answers wrong to questions you would learn it. She also had an interesting approach during lab, where she went through the whole lab materials with the students (line by line) which was helpful.
Hyewon was a great TA. She always answers our questions very clearly and patiently.
Good knowledge in applied econometrics
They communicated clearly, were always willing to help students, and taught patiently. In many ways, their explanations were clearer and more organized than the instructor's.
She understood the course's concepts.

## What suggestions for improvement do you have for this student in their capacity as a teaching assistant?

Comment
She was a perfect teaching assistant.
Good person
None
N/A
Print out sheets, this would be helpful to follow along.
I was a little bit put off in the beginning of the semester because Hyewon would often not take questions during lab. However, I understand that this was largely because of the time constraint for lab. To that end, I would recommend that Hyewon spend a little more time answering questions than completing the lab worksheets. This is a very minor area for improvement. Hyewon is a great TA.
In order to get through all the material, both TAs ended up lecturing for most of the discussion section and did not have time for questions. This was challenging because there was very little time available in any format to get extra help if you didn't understand a concept.
Great, thanks Kim.
none
It would be helpful to recognized that all the students work at different pace and some may need more assistance than others.
None. Thank you so much for your kind help! I wish the very best for your continuous success
good enough. Thankyou!
N/A, she is so nice
I would say that improving the ability to speak to students with different levels of knowledge and communicating more confidently with everyone would be an important area for growth.
